RST Gulf Contracting Company

PROFILE

ABOUT US!

RST Gulf Contracting Company was established under Saudi CR No. 2051237489 in Khobar, originally focusing on building construction. Over time, with expanded experience across diverse sectors, RST Gulf has built a strong reputation in civil, mechanical, and electrical engineering, as well as high-quality woodwork and furniture manufacturing.

The company leverages advanced technology and expertise to support continuous growth. RST Gulf has successfully executed and completed numerous projects across both the private and public sectors within the Kingdom, consistently meeting project timelines and quality standards.

VALUES

We deliver exceptional design and project implementation tailored to meet the unique requirements of our clients whether business, individual, or government. Our commitment includes adhering to the highest international and local quality standards in both structural and architectural aspects. Utilizing global project planning tools, we integrate value engineering principles to enhance efficiency and effectiveness in every project.

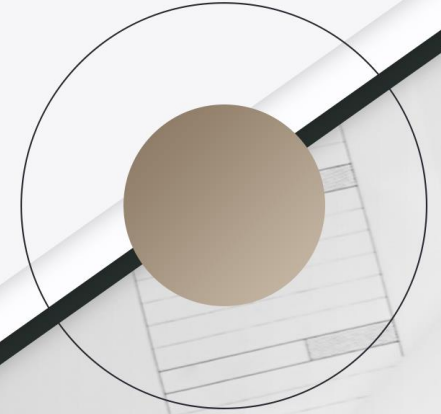

OUR MESSAGE

Our mission is to deliver outstanding results for our customers, offer promising career growth for our employees, and achieve a return that reflects the value we provide—all in alignment with the Kingdom's Vision 2030.

VISION

Our vision is to remain at the forefront of quality and competitiveness in the construction industry.

**QUALITY
&
SAFETY**

RST Gulf Contracting Company understands the importance of providing quality, safe and clean services to our client is the vital part of being a successful building services provider.

OUR SERVICES

01

CIVIL & ARCHITECTURE SOLUTION

Grounded in extensive experience in building construction, encompassing large-scale projects such as residential, educational, commercial, and medical facilities.

02

SECURITY AND SAFETY

We have a dedicated department specializing in safety engineering, fire prevention, and alarm systems, staffed by a highly trained team with advanced technical expertise. Our team has full knowledge of Civil Defense standards in Saudi Arabia and GCC countries, ensuring top-tier safety compliance and preparedness.

03

ROADS SOLUTION

Comprehensive services include earthworks, excavation, grading, and asphalt layer application. This section also covers public works such as piers, landscaping, tree planting, garden installations, and site coordination.

04

OPERATION & MAINTENANCE

We provide a full spectrum of field services, backed by expertise in all engineering tasks essential for controlling, monitoring, and maintaining facilities. Our services cover plumbing, energy management, electrical systems, water heaters, ventilation, air conditioning, mechanical systems, as well as façade maintenance and cleaning.

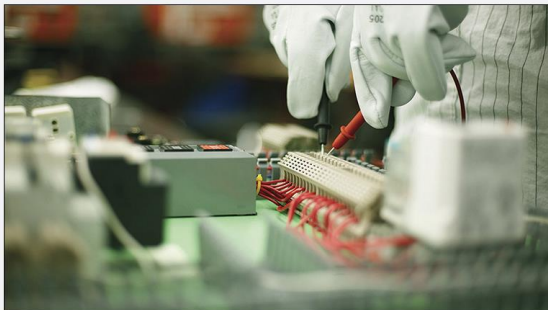

OUR SERVICES

05

ELECTRO MECHANICAL

Our services encompass all aspects of building design, procurement, installation, testing, commissioning, and maintenance for multi-service installations, ensuring comprehensive support across all project phases.

06

WATER & SANITARY WORKS

This section covers the installation of sewage network pipes of varying diameters, along with the supply and construction of manholes, connections, and all related civil works. Our qualified technical staff ensures that these tasks are executed in accordance with professional standards and guidelines.

07

IT & COMMUNICATION

RST possesses the capability and skilled personnel to execute IT and communication projects, supported by a dedicated engineering team for on-site implementation and tailored solutions as required.

08

STEEL STRUCTURE

RST offers comprehensive engineering and construction services for industrial, commercial, and recreational projects, delivering high-quality steel structure solutions.
